REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest the claimed wavelength conversion device including an optical path adjusting portion for adjusting the direction of propagation of the fundamental wave light and the position of the light beam of the fundamental wave light in order to make the fundamental wave light enter the nonlinear optical crystal while satisfying phase matching conditions; an adjustment value calculating means for calculating the adjustment values that respectively correspond to a plurality of adjustment means provided in the optical path adjusting portion, using fuzzy inference, from the value of the intensity of the converted light that is output from the photodetector; and an optical path adjusting portion control device for controlling a plurality of adjustment means provided in the optical path adjusting portion, based upon the adjustment values calculated in the adjustment value calculating means.

.The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hayashi et al discloses a medical laser apparatus including an angle changing unit which changes an incident angle of the fundamental beam to the wavelength converting element and a controller which controls the first changing unit on a change on a power of the fundamental beam. This reference is not available as prior art due to its publication date. The prior arts cited in the IDS filed August 04, 2006 fail to disclose or suggest the claimed optical path adjusting portion, a plurality of adjustment means, and an optical path adjusting control device as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to HEMANG SANGHAVI whose telephone number is (571)272-9955. The examiner can normally be reached on Mon-Fri.
